

Guide de montage
Rouleau mine supérieur

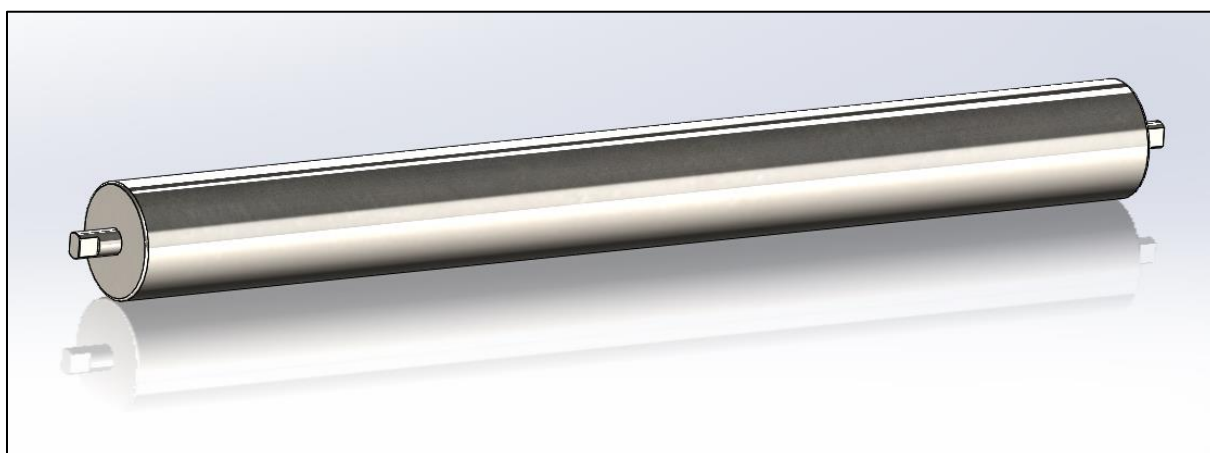

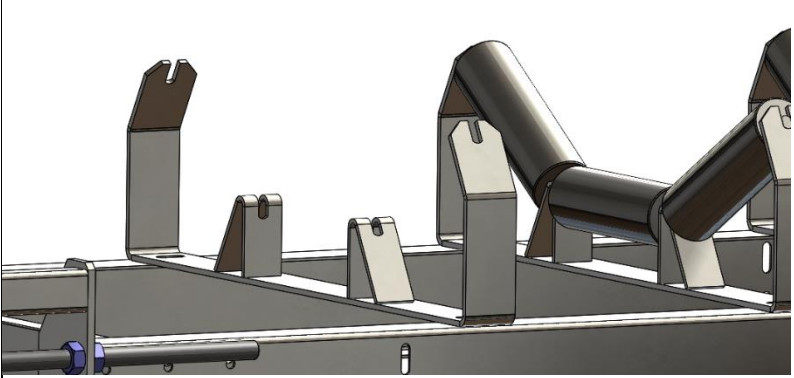

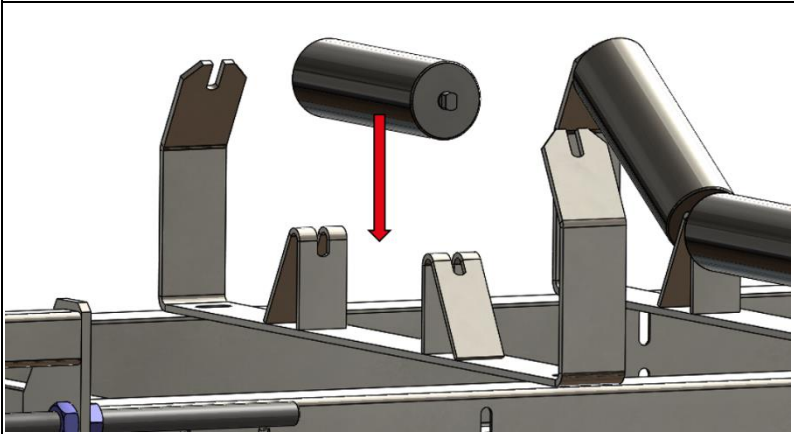

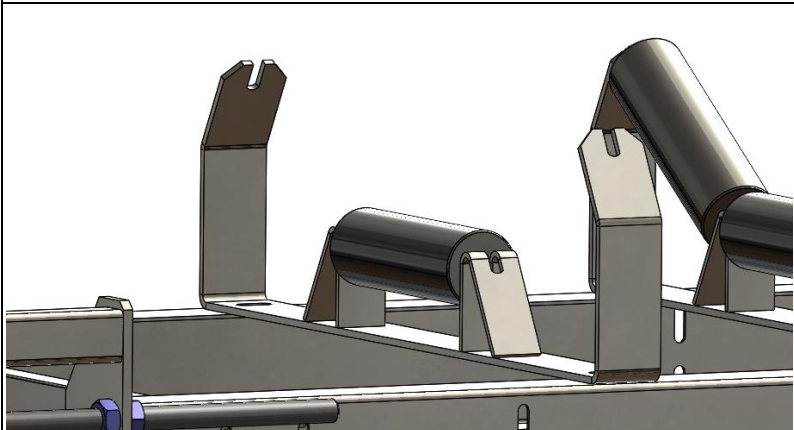

Illustration	Description
 A technical illustration of a conveyor system. A roller is being positioned on a station. The roller is shown in a position where it is about to be lowered onto the station's frame.	<p>1. Libérer la place sur la station souhaitée afin de pouvoir accueillir le rouleau mine supérieur.</p>
 A technical illustration showing the roller being lowered onto the station. A red arrow points downwards from the roller, indicating the direction of movement.	<p>2. Positionner le rouleau sur la station à l'aide de son axe méplaté de chaque côté.</p>
 A technical illustration showing the roller fully installed on the station. The roller is now resting on the station's frame, and its flat ends are visible.	<p>3. Le principe est le même pour les 3 emplacements de rouleau sur chaque station.</p>
